PAPER TITLE:
"Electronic Cigarette Characteristics and Acquisition Means among Adolescent Daily Users"
Initiated in 2011 with the Kellogg Health Scholar Program
- Originally funded by a grant from the National Institutes of Health – Center for Minority Health and Health Disparities

Mechanism to facilitate high-quality mentorship interactions among junior and seasoned investigators within the Academy

Matched based on their research interests, each Mentee-Mentor Pair works together to develop skills and gain experience in conducting research-related activities

Mentee-driven based on their career stage and goals
- **Products** (grants, publications, white papers, presentations, new study)
- **Processes** (research trajectory, CV development, networking, P&T preparation, job talks)

Enhance research trajectories and bolster productivity
Research Scholars Mentoring Program (RSMP)

• 12-month program (begins and ends with the AAHB Annual Conference)

• **Face-to-Face Form:**
  • Meet for 4 hours to become acquainted, discuss career goals, align research efforts, and develop a Work Plan

• **Work Plan:**
  • Create an official Work Plan to define the goals, objectives, and overall scope of work for the year

• **Mid-Year Report:**
  • Report progress, challenges, and future plans at the mid-way point (opportunity to report accomplishments and revisions to the Work Plan)

• **Final Report:**
  • Report final set of accomplishments and reflections about the experience
